EL SPOT studios

Studio Disclaimer

1) El Spot Studios only charge per hour, if the booked time it exceeded, please use, and enjoy the extra hour.
2) The session starts when the engineers and assistants start setting up.
3) The session is done when we can close the (Protools, Logic, Ableton, FinalCut) project.
4) All edits, listening, bounces, stems, etc. done during the booked time are included in the price. If those are not in the time frame, the extra hours will be charged.
5) El Spot Studios will keep all files for a month, and you can collect the raw files during that period.
6) Beyond this first month El Spot Studios is not obligated to keep any of these files. But as an extra service, we try to keep our projects as long as possible. If anyone wants us to resend the files passed the first month it will have a fixed price of €40 (as an archiving fee) + €25/hour if extra work is required (edits, bounces, stems, etc)
7) We always recommend our clients to bring a hard drive for them to transfer the raw files as a backup
